## Message from the Director

I am pleased to submit the ADC Fiscal Year 2017 Annual Report, as required by Ark. Code Ann. 12-27-107. The Arkansas Department of Correction continued to experience growth in the inmate population during FY17 with the jurisdictional remaining over 17,000 inmates.

During this fiscal year, we continued to work on Reentry and Restrictive Housing goals. One Reentry success is our Think Legacy program utilizing an evidenced-based "Thinking for a Change" program developed by NIC. Additionally, other state agencies, including Workforce Development, have offered workshops and programs for inmates close to release. Nonprofit groups have continued to volunteer such as the Burlsworth Foundation, and shared positive messages with the inmates. To further family contact, the video visitation has been expanded. And, the tablet program that was piloted at EARU has expanded throughout the Department providing educational and reentry information and services to inmates. We continued our efforts toward reducing the use of Restrictive Housing within our facilities while making changes to our disciplinary policy to increase safety. One change was to add "refusal to obey an order to move" (12-4) as a Class A disciplinary which allows for assignment to Restrictive Housing. We also added a penalty of up to 365 day loss of the ability to purchase any commissary item used as a weapon.

As Director, I am proud of ADC's employees and their achievements this past year. Our uniform badge has the phrase "Honor and Integrity in Public Service" as a part of its design. From the newest hire to the most seasoned veteran, our staff live that phrase daily! I continue to be amazed at the professionalism by which our staff approach their duties in the midst of continued population growth and other challenges including staff vacancies. Our officers, chaplains, healthcare providers, food service staff, grievance and records staff, and many more are vital to the success of rehabilitating our inmate population.

The Agriculture Division is largely self-sufficient and is designed to cost-effectively produce sufficient food for inmate consumption and maximize its revenues from the production and sales of marketable field crops and livestock. Several Farm Operations were reviewed during this fiscal year which led to adjustments to row crop and dairy operations. Our Industry Division, a self-supported program, has developed a strategic plan which is reviewed quarterly to ensure that the division is meeting or exceeding its operational goals. Our Work Release Programs provide inmates with an opportunity to earn a wage from working jobs in the community, while the PIE Industry Program does the same inside the fence. Working inmates reimburse the state \$17/day toward the cost of their incarceration. This revenue is used to cover the operation expenses at the Work Release Centers and purchase capital equipment for the agency. These inmates also provide support to their dependents and maintain a savings account while working.

For a monthly breakdown of the department's activities, statistics and other information, please see the monthly board reports on <http://www.arkansas.gov/doc/>.

On behalf of this agency, I extend a collective thank you for the support the Arkansas Department of Correction has continued to receive from Governor Hutchinson, the General Assembly and the Board of Corrections to carry out our mission to provide public safety.

Respectfully Submitted,

*Wendy Kelley*

## Board of Corrections

The Board of Corrections has seven members that are appointed by the Governor for seven year staggered terms. The Board of Corrections consists of five citizen members; the Chairperson of the Parole Board and a Criminal Justice faculty member employed by any four-year university in Arkansas for a total of seven voting members. Current Board of Corrections members are:

**Benny Magness, Chairman**  
**Senator Bobby Glover, Vice-Chairman**  
**Buddy Chadick, Secretary**  
**Reverend Tyrone Broomfield, Member**  
**John Felts, Member**  
**Dr. William "Dubs" Byers, Member**  
**Whitney M. Gass, Member**

Dr. Mary Parker-Reed, the longest serving Board Member, retired after serving on the Board of Corrections for 23 years (1993-2017).

Whitney Gass, Assistant Professor of Criminal Justice at Southern Arkansas University, was appointed by Governor Asa Hutchinson to the Arkansas Board of Corrections. She replaced Dr. Mary Parker-Reed.

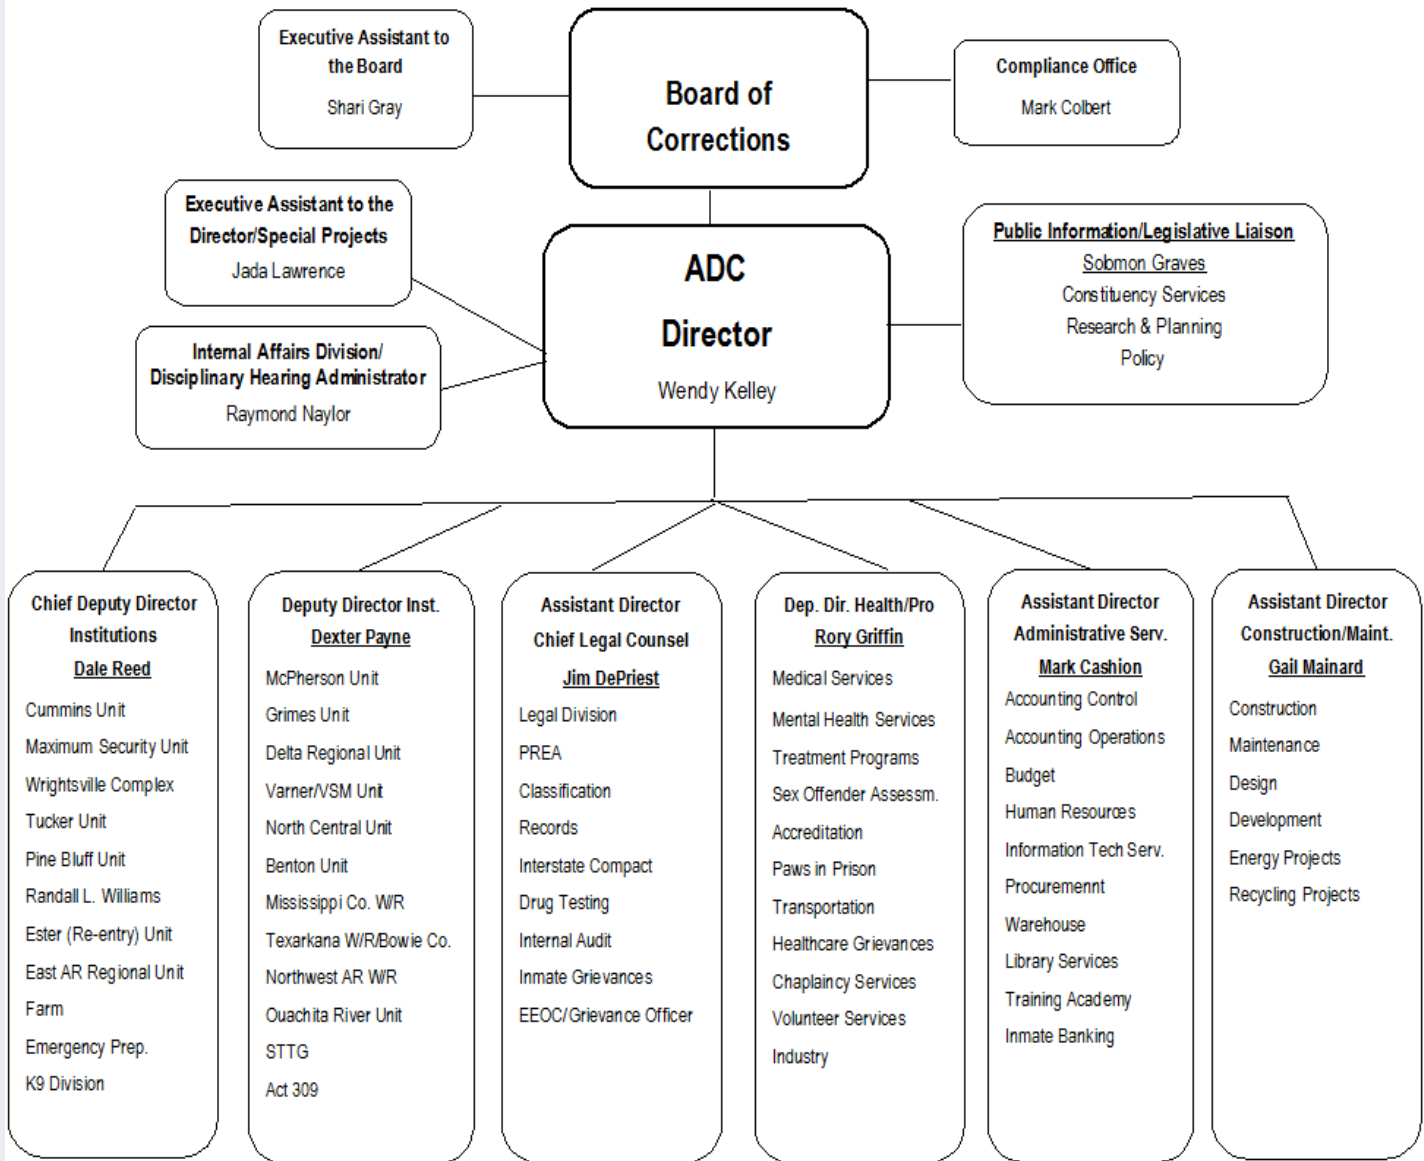

Mrs. Gass has been quoted as saying that she hopes to make positive changes in public policy for corrections in the state, including revising education and rehabilitation programs to better prepare inmates to transition into society after incarceration.

Mike Carraway, Assistant Director of Administrative Services, passed away after a sudden illness, at the age of 55. Mike was a dedicated State Employee for 13 years. He enjoyed hunting, fishing and was a skilled marksman. He was an extremely generous person and would help anyone, any way that he could. The greatest joy of his life was being Noah's dad and he was so proud God had blessed him with such a good son. Mike is truly missed...

## Tucker Unit

100th

Commemoration

The Tucker Unit held its 100th year commemoration event at the Tucker Unit during FY17.

The facility's history began on February 16, 1916 when the state purchased 1,384.64 acres of land that would become Tucker State Farm for \$4,801. An additional 3,056.65 acres was purchased in 1928 for \$152,832 and 20 acres in 1985 for \$30,000. The Maximum Security Unit and Tucker Reentry Center are also located on this property.

The Tucker Unit is located 25 miles northeast of Pine Bluff on 4,461.29 acres of land, of which 3,800 is used for agriculture. Corn, rice, soybeans, wheat and hay are grown, along with vegetables for inmate consumption. The unit has over 355 treatment beds, and has been offering colleges since March 2016.

*A Century of Moving Forward*

# Commemoration

The East Arkansas Regional Unit held its 25th commemoration event at the East Arkansas Regional Unit during FY17 in conjunction with their employee award's banquet.

The facility's history began in 1990 when the state purchased 2,949 acres of land in Brickeys, Arkansas. On May 22, 1992 the doors of the East Arkansas Regional Unit officially opened with 200 beds and fifty correctional officers. In 1995, the Lee County Jail was completed, housing both male and female detainees and the Parole Violator Program. The East Arkansas Regional Maximum Security Unit was opened with 492 beds and two isolations wings in 1998.

The East Arkansas Regional Unit is located approximately 17 miles southeast of Forrest City on approximately 3,000 acres of land, of which approximately 2,951 is used for agriculture. The Unit was the tablet pilot project for the state and opened a college program this year provided by the Central Arkansas Baptist Bible Institute. A quarter of a century of moving forward.

## Arkansas Institutions Selected to Participate in Inaugural Second Chance Pell Pilot Program

Giving inmates a second chance through education, the U.S. Department of Education announced the Second Chance Pell Pilot Program to restore educational access for some of those individuals, improving their chances of successful and productive reentry after they are released. Shorter College, Arkansas State University-Newport (ASUN), Arkansas Community Correction and the Arkansas Department of Correction began enrolling adults in Arkansas prisons in college in onsite college courses. Under the U.S. Department of Education's newly created Second Chance Pell Pilot Program, incarcerated students receive federal Pell Grant funding for postsecondary education. The ADC has also partnered with Central Arkansas Baptist Bible Institute (CABBI) and Likewise College for college courses outside the Pell Grants.

Fall 2016 semester, ASU had 39 inmates enrolled in college classes at the McPherson Unit and 25 inmates enrolled at the Grimes Unit. Of those enrolled, 56 inmates received the Second Chance Pell Grant and 8 received scholarships. At the end of the fall semester, Inmate Mondrea Scott received her Associate's degree and paroled soon after completing. Spring 2017 semester, ASUN had 30 inmates enrolled at the McPherson Unit and 14 inmates at the Grimes Unit. Of those enrolled, 26 inmates received the Second Chance Pell Grant, 2 received scholarships and 2 were self-pay.

Shorter College offers five degrees. Participants in the Second Chance Program are enrolled in the college's Entrepreneurial Business degree program to give former incarcerated persons training in setting up their own businesses as well as training in business principles.

Central Arkansas Baptist Bible Institute (CABBI) is a 2 or 4 year program where inmates can earn an Associate or Bachelor Degree in Theology/Seminar Studies. Approximately 9 inmates have received Bachelor Degrees and approximately 25 inmates have received Associate Degrees. Average enrollment is 40. The courses started at the Ouachita River Unit and have expanded to the East Arkansas Regional Unit.

Likewise College (LC), the first college established to help prison inmates escape the recidivism cycle, offer courses at the Tucker Unit. LC exists to equip, empower and encourage prison inmates to pursue the fulfillment of their highest human potential. LC designed the Associate of Arts in Humanities and Associate of Science in Entrepreneurship to offer qualified prison inmates a blend of professional interactions in the prison and correspondence and/or distance delivery methods as they pursue a Christian liberal arts higher education. One of LC Staff members is noted as observing several of the inmates have demonstrated significant growth in interpersonal communications skills and show a more confident disposition. Average enrollment is 25.

## Dance 2B Free

Dance to be Free began at the Hawkins Center in February 2017 and has since spread to the McPherson Unit. D2BF (their acronym) is focused on the

mind-body connection of female inmates. It provides training for inmates to become instructors in group dance activities. This

allows them to sharpen their skills leading organized dance activities and potentially employment after leaving the institution. For the inmates participating in the activities, D2BF allows inmates to both improve their physical fitness and through movement improve their mental and emotional wellbeing. The program has provided a moral boost and improved behavior in the population. The philosophy being, if we move together we share an experience which allows us to find common ground and then we get along better. Dance to be Free is in 5 states: Arkansas, Colorado, Nebraska, Washington and Hawaii.

## Think Legacy Re-entry and Reunification Job and Resource Fair

Tucker Unit Inmates met with representatives of social service organizations, gaining skills for life after prison. Vendors who are willing to hire ex-offenders were at this Fair. Think Legacy is an evidence based re-entry program. Inmates are in the program for six months and as they approach the end of the program, they are connected with resources. Nicole Clark, the ADC Think Legacy Re-Entry Treatment Coordinator said, "this program teaches social skills, cognitive thinking skills and therapy to retrain their minds. The inmates need to learn a new way of thinking and to identify triggers in which they become angry". "The only way the criminal mind is going to stop is by changing their way of thinking", Clark said.

## Cell Phones for Soldiers

The introduction of a cell phone into a correctional facility is a crime under Arkansas law. Correctional Officers throughout the ADC confiscated 848 new and used cell phones during FY17. The ADC donated the confiscated cell phones to Cell Phones for Soldiers. This is the third year the Department has donated confiscated phones to this nonprofit organization which provides the donated phones to soldiers needing them to call their families and friends. "We are once again fortunate to be able to support this valuable organization as they work to connect those that protect us" - Director Kelley.

## ADC Regional Maintenance Inmates assist Jackson County with flood recovery

Before the White River flowed over its banks, Jacksonport State Park called for the assistance of the Grimes Unit Regional Maintenance Inmates for assistance filling sandbags.

# Accomplishments FY 17

Accreditation is intended to improve facility operations through adherence to clear standards relevant to all areas/operations of the facility, including safety, security, order, inmate care, programs, justice, and administration. In fiscal year 2017, seven correctional institutions successfully achieved their American Correctional Association (ACA) reaccreditation. The following tables show the compliance level results for each facility from their FY17 ACA audit.

Facility	Mandatory	Non-Mandatory
Benton Unit:	100%	100%
Wrightsville/Hawkins Unit:	100%	99.8%
Tucker Unit:	100%	100%
Delta Regional Unit	100%	100%
North Central Unit:	100%	99.5%
East Arkansas Regional Unit:	100%	99.8%

# Fiscal Summary FY17

The ADC operational budget for FY 2017 was \$346,548,778, excluding Correctional Industries, Farm & Work Release that operate under separate funds. The single largest expenditure continues to be personnel costs, accounting for 63.7% of the fiscal year. The Department's personnel cost increased by \$2,088,919 during FY17, primarily due to an increase in overtime because of shortages in security staff. In addition to personnel costs, other significant expenditures during FY 2017 included inmate health care costs (accounting for 18.4% or \$63,706,149), utilities and communications (accounting for 4.0% or \$13,804,584) and food and supplies for inmates (accounting for 5.8% or \$20,129,114).

# Population Trends

Total ADC Population FY08 to FY17

The continued up-tick of violent vs. non-violent offenses is due in part to the 90th General Assembly passing Act 895 of 2015 which moved Residential Burglary & Aggravated Residential Burglary from a non-violent offense to a violent offense. FY17 data depicts that 7.6% of the ADC current population are serving a sentence for Residential Burglary. FY17 data reflects that 56% of the Arkansas Department of Correction inmates are serving time for violent offenses while 44% are serving time for non-violent offenses.

According to the agency electronic Offender Management Information System (eOMIS), the above table illustrates data reflecting 12 months depicting charged and guilty findings. The above reference table also delineates that 79,613 disciplinary rule violations were charged during FY17. Of that 79,613 major disciplinary rule violations charged, 61,155 were guilty charges. Average conviction rate 76.82%

# Inmate Disciplinary Data Continued FY16 vs. FY17

**FY16**

These two tables show that both male and female inmates top five major disciplinary issues are similar such as Failure to Obey Order of Staff, and Insolence to Staff.

**FY16**

**FY17**

Although the type of disciplinary issues remain relatively the same between male & female inmates from FY16 to FY17, the FY17 table will show that the number of Unexcused Absence from Work/School (3-3) substantially increased by 69% for males from FY16 to FY17. (In response, the Department began sending inmates who refuse work assignment to Bowie Co.)

For the FY17 numbers, 70%ers are those that received a 70% sentence during the fiscal year, while the 50+ and 100+ inmates are those that began a term of incarceration of 50 or 100 or more years prior to the fiscal year. Of the 993 Inmates sentenced to 50+ years, 446 of these inmates will reach the age 65 on or before their parole eligibility date. According to a report prepared by the Arkansas Department of Health, the life expectancy rate in Arkansas is age 76.*

## ADC Agriculture

The Arkansas Department of Correction Agriculture Division is designed to be a self-supporting program to save tax dollars. The Division's primary goals are to: provide useful and meaningful work for inmates, cost-effectively produce sufficient food for inmate consumption, and maximize revenues from production and sale of marketable field crops and livestock. The Division also supports the security efforts of the Department's facilities by providing horses through the equine program and by maintaining "buffers" of land between many of our facilities and surrounding communities. The ADC depends on the Farm Program to reduce the cost of incarceration, provide benefits without direct state funding and provide benefits without competing with private business. The food provided has resulted in over \$9 million in savings for the taxpayers of our state for the last five years.

## ADC Industry

The Mission of the Arkansas Correctional Industries (ACI) is to train and educate inmates in marketable skills through various programs, thus enabling them to produce quality goods, products and services. ACI will accomplish this by providing a work setting which replicates private industry. Participating inmates allow ACI to support the efforts of governmental entities and non-profit organizations by offering these groups quality goods and services at competitive prices. Revenues derived from these efforts permit ACI to expand its ability to train inmates in high-demand fields and offer additional products and services to its customers. ACI programs support the Department's reentry efforts by providing a worthwhile programming option while incarcerated that allows an inmate to develop marketable hard and soft skills, thereby positioning themselves for employment upon release.

## A Glance at Education

Education for inmates is provided through the Arkansas Correctional School. The accredited district provides non-graded programs that enable students to progress individually. Academic testing during intake orientation determines placement. Students are retested at three month intervals and may be promoted to higher levels, with the potential of earning a high school equivalency (GED) diploma. Inmates have also earned associates and bachelor degrees with several schools and universities offering on-site classes. The Board of Corrections has made education mandatory for all capable inmates who lack their GED or High School Diploma. Since this mandate in 1973, the Arkansas Correctional School has successfully graduated approximately **24,138** graduates.

# Job/Work Program

Research has found that jobs/programs are positive for inmates and the community. It has also been noted that meaningful work provides a skill and helps to cultivate self-esteem. The Vision of the Arkansas Department of Correction is to be an honorable and professional organization through ethical and innovative leadership at all levels, providing cost efficient, superior correctional services that return productive people to the community. The Unit Classification Committee makes all work assignments. All inmates assigned to the Arkansas Department of Correction are assigned a job if they are medically able to work and disciplinarys will be written if an inmate refuses a work assignment. Most job assignments are based on the inmate's medical class status and the ADC does not pay wages to inmates.

## Ester Unit

**Mission:** To provide a secure and humane correctional environment for staff and inmates. This is accomplished through strict adherence to established security practices and program opportunities for inmates to develop physically, mentally and spiritually.

Original construction of this facility began in 1978 with inmate labor bussed from Cummins Unit. The Diagnostic Unit began operating as a reception center for the ADC in 1981 when the first inmates were delivered from the county jails. The initial construction had not been completed when it was expanded to a capacity of 486 inmates. In 1993, modifications to accommodate inmates with special needs reduced the capacity to 467 and then in 1995, beds were added back. In January 2012 this facility was closed, moving all operations to the Ouachita River Correction Unit in Malvern. In 2015, the remodeling of this unit began with the inmate living area first. July 2015, the first 184 inmates moved in followed by 196 in December 2015. The opening of the last barracks and the Medical Department occurred in 2017.

## **Northwest Arkansas Work Release Center**

**Mission:** To teach inmates work ethics and fiscal responsibility. Many inmates have never had a steady job and we attempt to teach them the necessity of going to work every day, on time and to conduct themselves in a proper manner while they are in the work place. Teaching fiscal responsibility involves showing the inmates the importance of meeting their financial obligations. First, while on the work release program, they must pay for their upkeep. Second, we see that they assist in the support of their dependent families. We will also require inmates to save a portion of their salaries to help them get a new start once they are released from prison. It is the mission of the Northwest Arkansas Work Release Center to also provide a service to the community, which will foster a positive awareness in relations to the Department of Correction as a whole and provide inmates the skills to develop a high degree of responsibility.

## Re-Entry

The Arkansas Department of Correction (ADC) recognizes that the majority of inmates incarcerated will be released into the community. Therefore, we strive to give inmates the needed skills and work ethics to succeed once they are released. The ADC is honored to be in partnership with community employers in providing the Re-Entry inmates a chance to become productive citizens. While in the program, inmates are required to pay dependent care for their minor children, fines if applicable and to save money to be utilized upon their release.

The Re-Entry Center located in Pine Bluff has a 54 bed capacity. FY17 Average Daily Population was 54. End of FY17 number of employees was 16. The Pine Bluff Re-Entry Center has approximately 10 Employers in the Pine Bluff Area providing jobs to male inmates at a salary range of \$8.85 - \$14.00 per hour.

The Re-Entry Center located in Tucker has a 124 bed capacity. FY17 Average Daily Population was 104. End of FY17 number of employers was 31. The Tucker Re-Entry Center has approximately 5 Employers in the Pine Bluff and Little Rock Area providing jobs to female inmates at a salary range of \$8.35 - \$12.00 per hour. Inmates not employed in the community have various other jobs at the Unit and attend classes such as WAGE & Think Legacy.
